*Welcome!*

Welcome to our 12th Annual sale here on the farm. I hope this letter finds you doing well and enjoying what has been a relatively mild winter here, which is definitely a blessing. We continue to use AI and embryo transfer heavily in our management of the cow herd. We strive to produce the most functional and trouble free cattle possible by heavily culling and heifer retention.

This year we are offering 47 bulls for your selection. At birth the bulls were vaccinated with C&D and Enforce Three. At 3 weeks they were given Bovishield Gold 5 and an Ultra Choice 7. Then they were vaccinated with One Shot Ultra at turnout. At weaning they received OneShot Ultra 7, Resvac 4/Somubac, and poured with Dectomax then poured again in December with Cleanup.

Prewearing we introduced creep feeders with 1/2 oats and 1/2 creep pellets. We feel this is a safe and effective way to lower stress at weaning and get calves started on feed. Post weaning the bulls were fed a high roughage 46 mcal TMR consisting of chopped hay, corn silage, and ground high moisture corn. Along with free choice salt and Flaxlic tubs.

Bulls penned for viewing at 10:00

Lunch served at 11:00

Sale starts at 1:00

We'll see you on sale day!

Visitors welcome anytime!
